The use of record for this property is: _____

- The existing use of the property is conforming (i.e., the use of the property is allowed in the underlying zoning district for the subject property)
- The existing use of the property is non-conforming.

A non-conforming use is defined as a use of land that was legally established and maintained prior to the adoption or amendment of the current Zoning Code but does not conform to the allowed land uses for the applicable zoning district in the current Zoning Code. (See Seaside Municipal Code Chapter 17.62 for further information regarding non-conforming uses)

The existing land use is non-conforming because: _____

- The use of the property has not been legally established and must be discontinued.

Please note: A property with a converted garage, addition(s), or modification(s) must have evidence of a finalized building permit and/or certification from the City in order to establish that the conversion, addition(s), and/or modification(s) was legally established.
